

## Made in Baden-Württemberg

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

# SPECIAL SYSTEMS

## Tailor-made machines for all requirements

3000 litre of emulsions are recycled from the chipping process in a chip centrifuge on a daily basis (three shifts) by means of this system.

## Made in Baden-Württemberg

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

# SPECIAL SYSTEMS

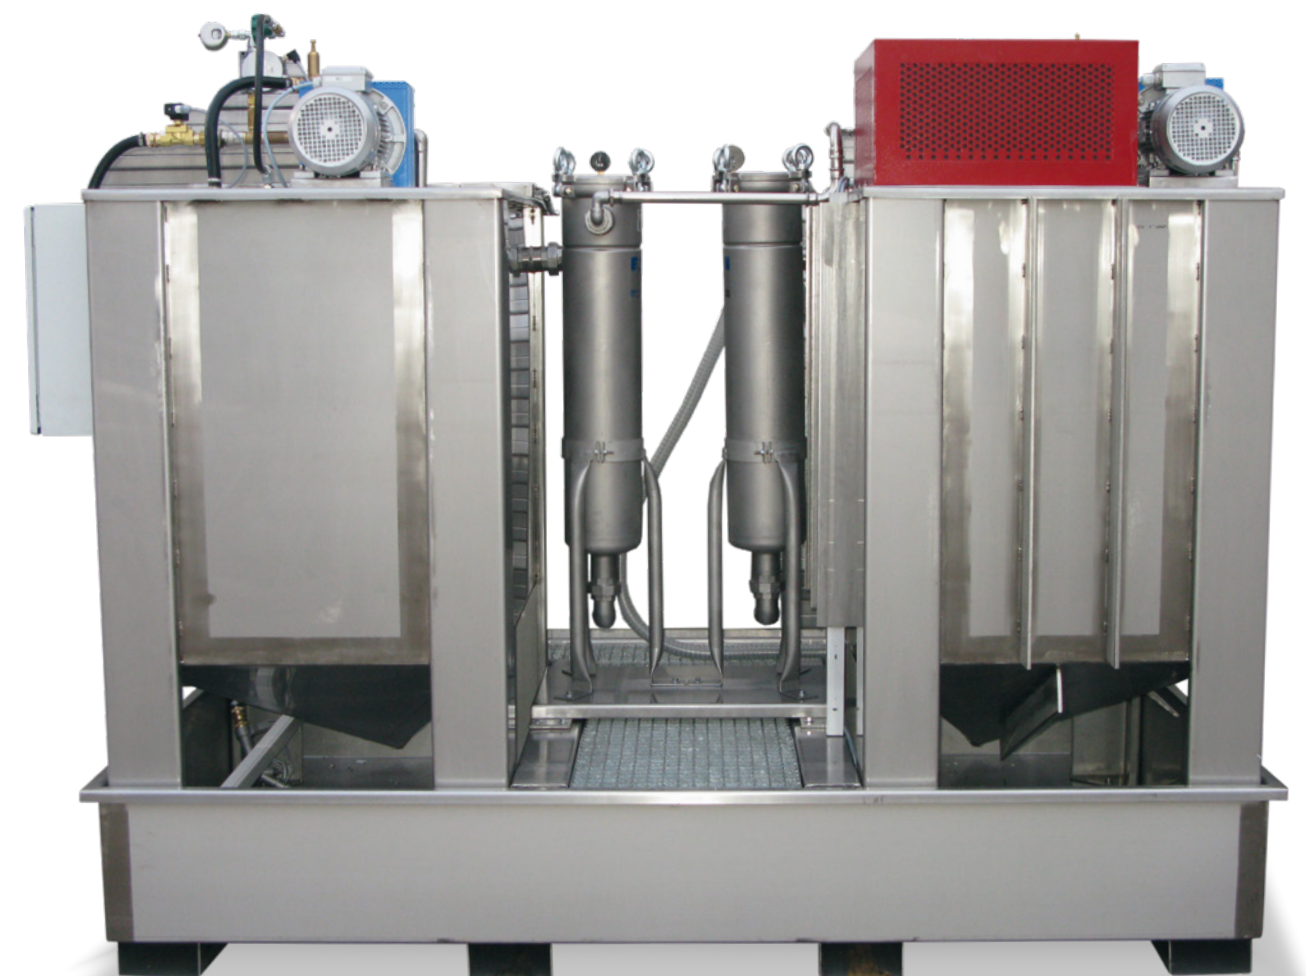

High-value, individual solutions

## System for cleaning of oil

- 2 unit of gear pump 60 l/min.
- 1 unit of roots blower
- 2 unit of filter
- 1 unit of particle counter

- 1 unit of ballast
- 2 units of storage container
- 1 unit of collecting tray

## Made in Baden-Württemberg

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

# SPECIAL SYSTEMS

The ideal solution for every requirement

## System for cleaning the fluid

Mixing system for separating fluids with water softening installation, stainless steel water storage tank. Mini digital 3000 mixing device and circular mixing tank for continuous circulation.

## Production safety:

The system has twin pumps

The illustrated drum is **not** included.

## Made in Baden-Württemberg

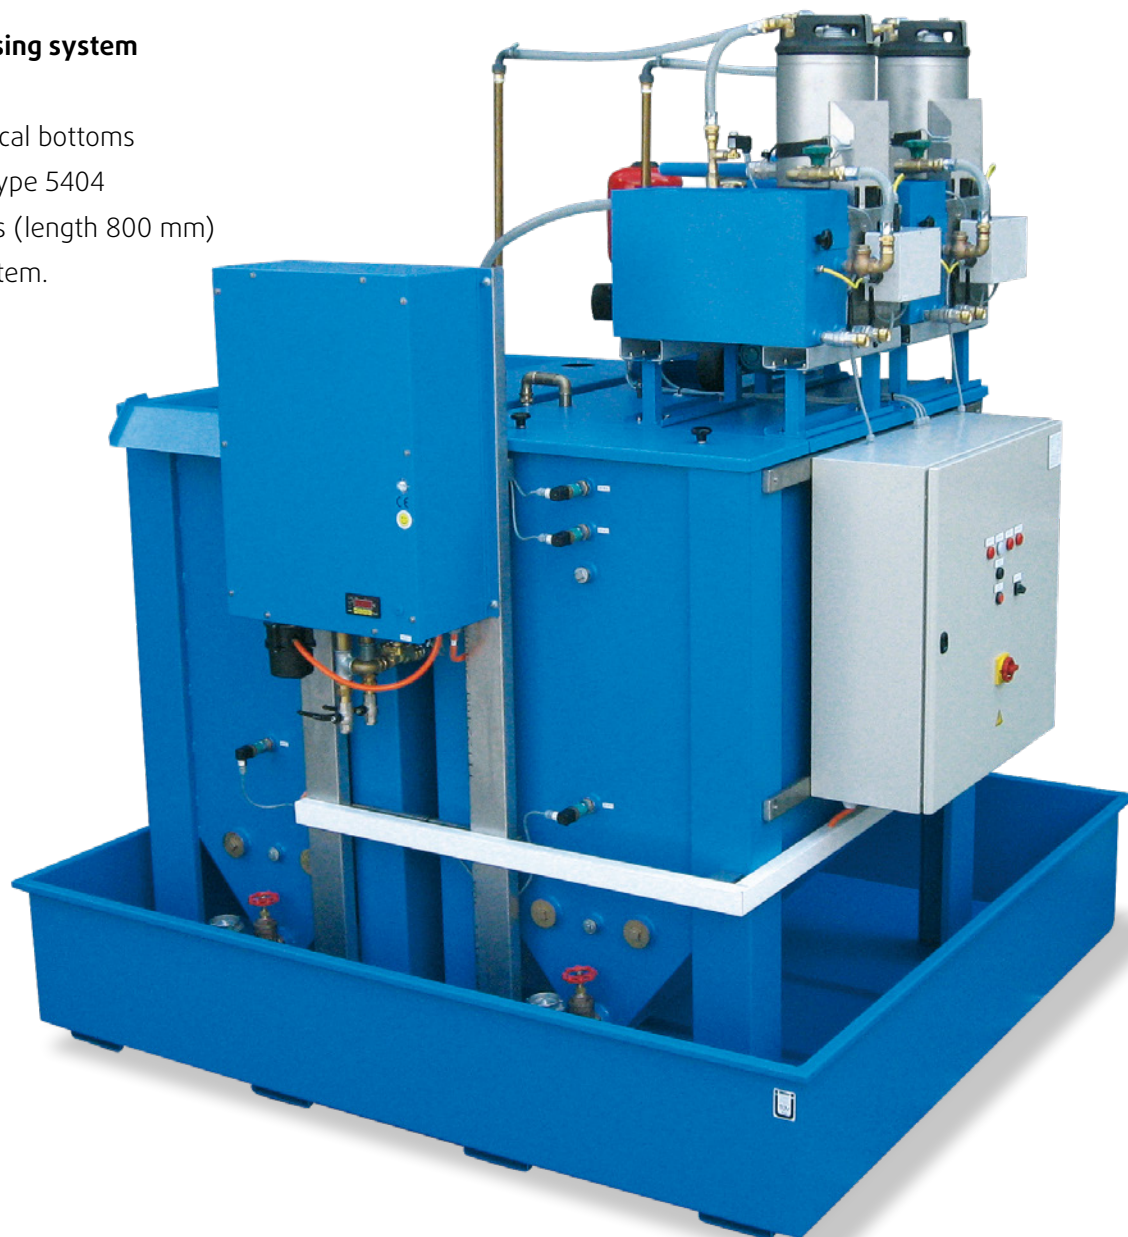

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

## SPECIAL SYSTEMS

Systems tailored to your requirements

### Emulsion processing system

- 2 Tanks with conical bottoms
- 2 Oil separators type 5404
- 2 Probe skimmers (length 800 mm)
- 1 Disinfection system.

Special mixing device  
with integrated  
static mixer.

**Hydraulic capacity:**  
up to 100 m<sup>3</sup>/h

Pressure boosting  
station with  
Mini digital 3000 mixer

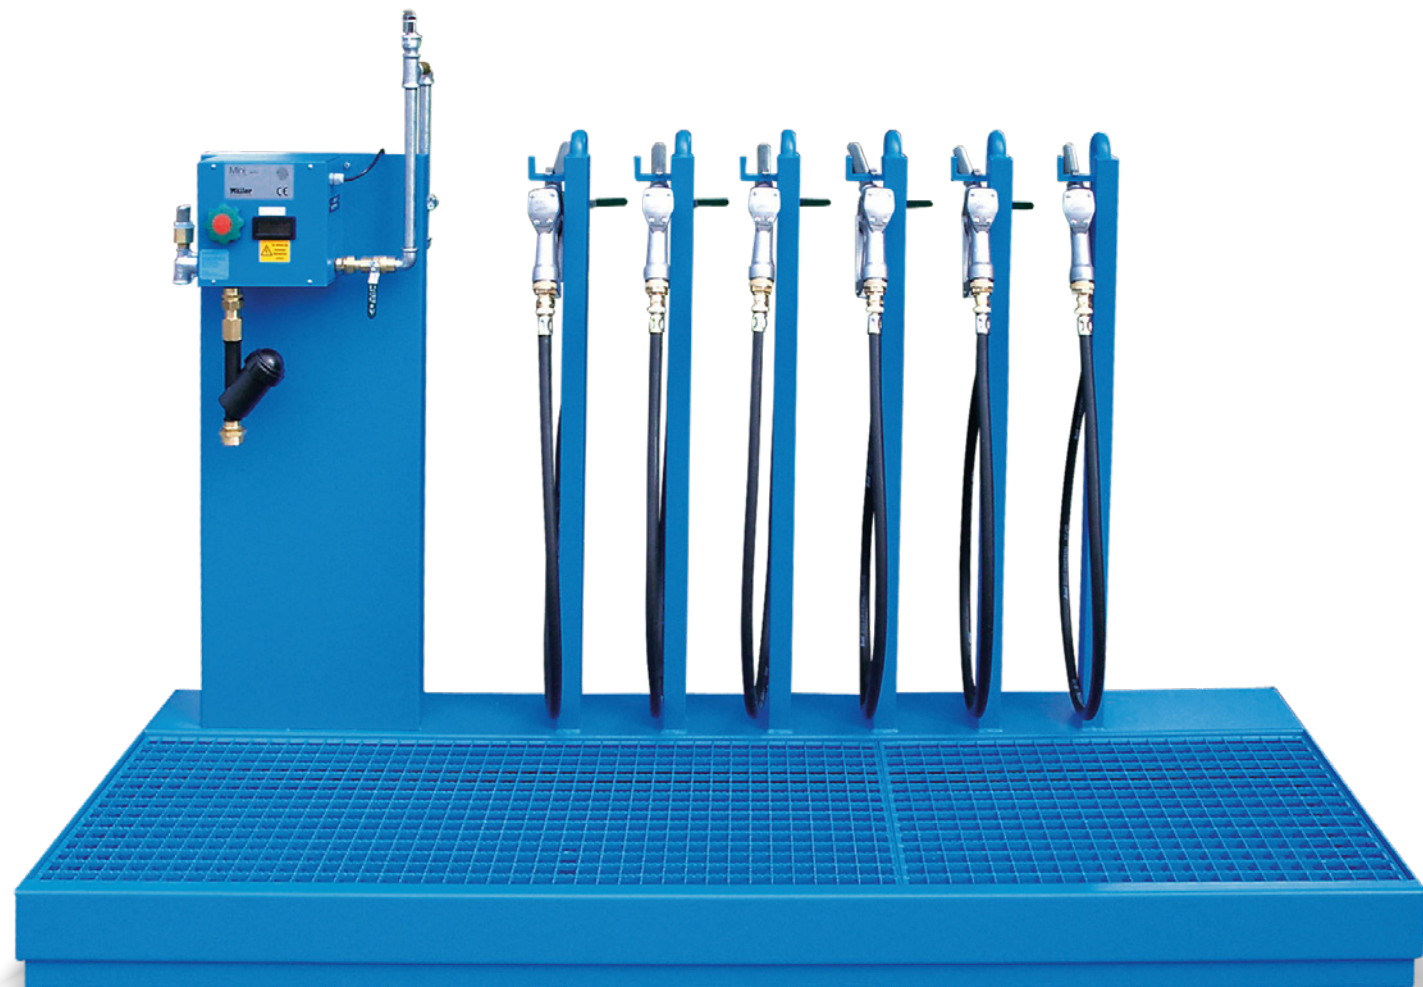

**Made in Baden-Württemberg**

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

## SPECIAL SYSTEMS

Unusual requirements – functional solutions

**Dispensers for various oils with  
Mini digital 1500 mixer**

**Antifreeze mixing system with digital mixing ratio  
monitoring (nominal/actual value comparison).**

Control panel with touch screen.

## Made in Baden-Württemberg

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

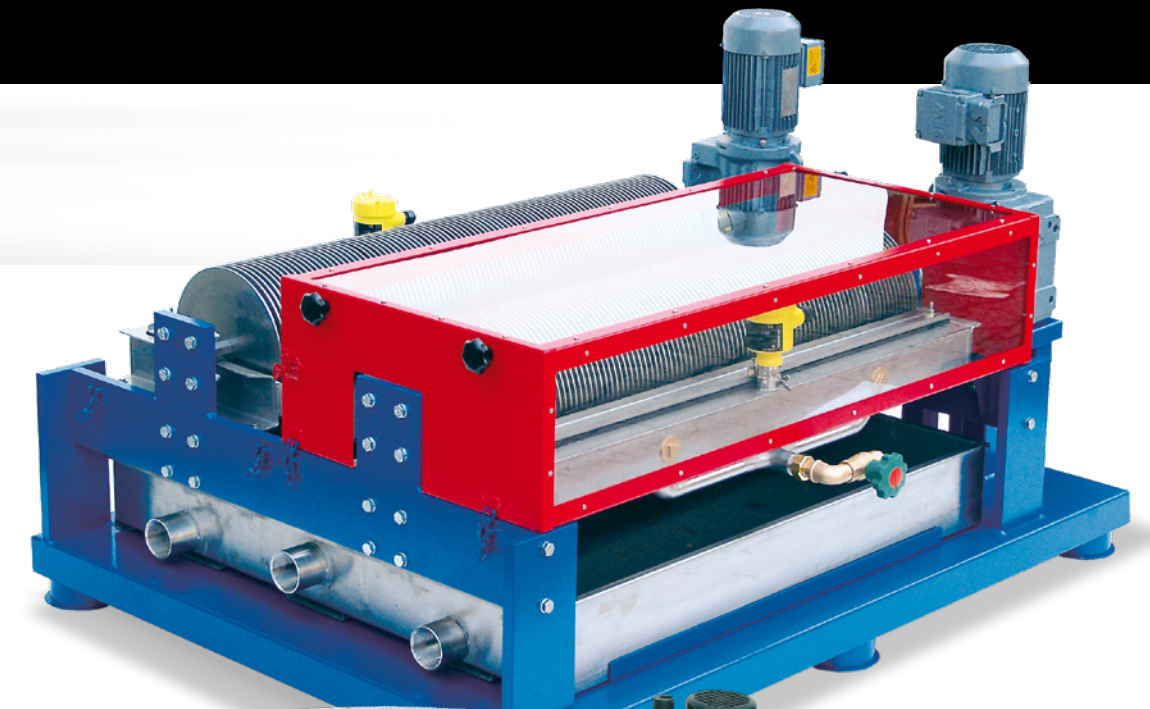

## SPECIAL SYSTEMS

Tailored to suit your specific requirements

Emulsion processing system with band filter  
oil separator, circular feed tank for continuous  
circulation, disinfection and cooling systems.

System for  
the separation  
of liquids with  
different  
viscosities.

Filter unit for cleaning abrasive  
water (mobile).  
Type: Heli blue motion

**Made in Baden-Württemberg**

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

## SPECIAL SYSTEMS

Optimal solutions for your applications

Mobile testing and filling system for internal combustion engines for the automotive industry.

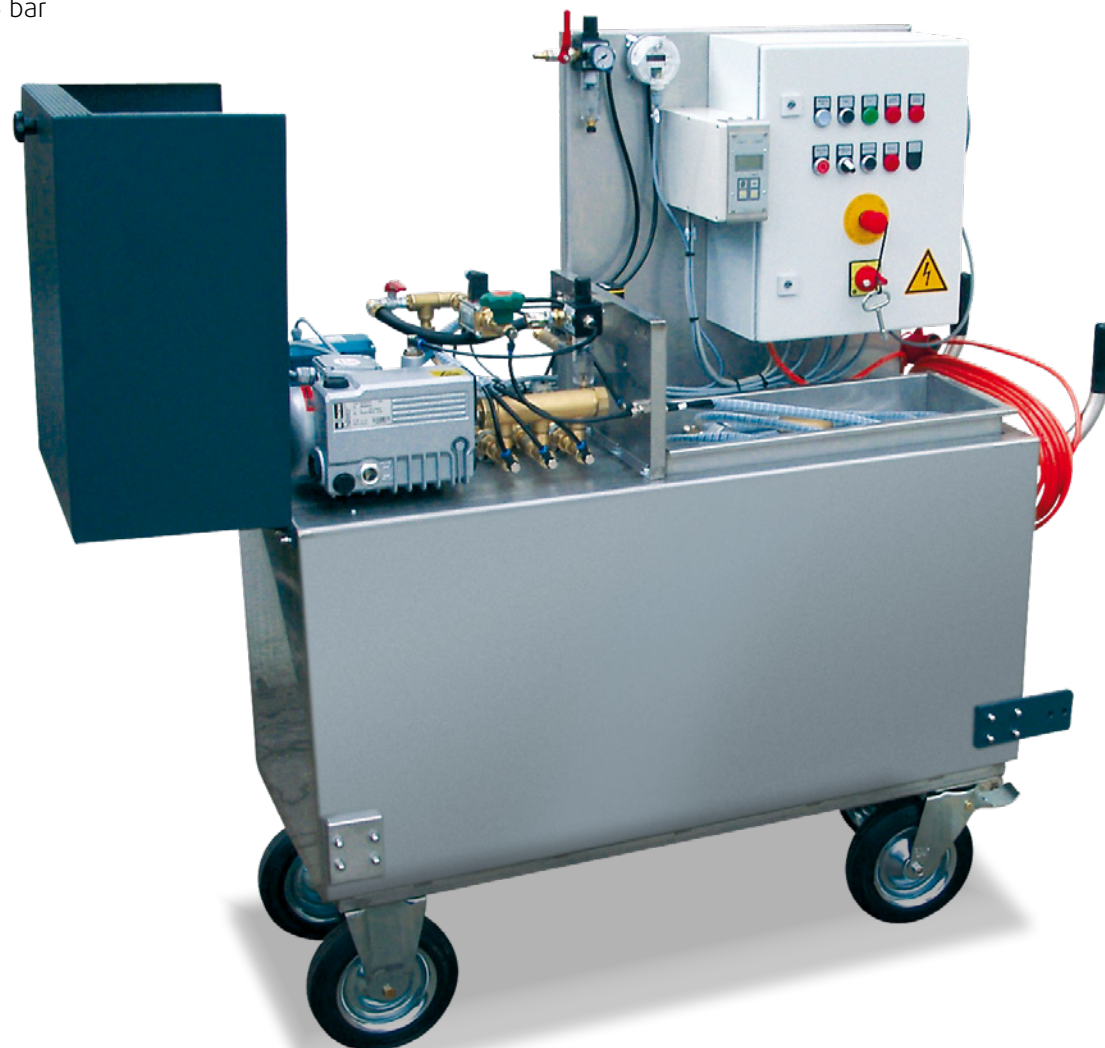

**Test pressure:**

-20 mbar absolute, +1,5 bar

Test time adjustable.

**Filling medium:**

Water/Glysantin mixture

Mobile oil supply system

**Made in Baden-Württemberg**

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

## SPECIAL SYSTEMS

Extraordinary ideas – perfectly implemented

Solution for filtration of liquids

Oil supply system  
for six different oils

**Made in Baden-Württemberg**

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

## SPECIAL SYSTEMS

Great concepts for extraordinary tasks

Oil purification system with  
magnetic separator

Special mixing plant

**Made in Baden-Württemberg**

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

## SPECIAL SYSTEMS

Ingenuity down to the smallest detail

Rotary dipping tank for corrosion protection

Processing system for KSS (customized)

Special systems

**Made in Baden-Württemberg**

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

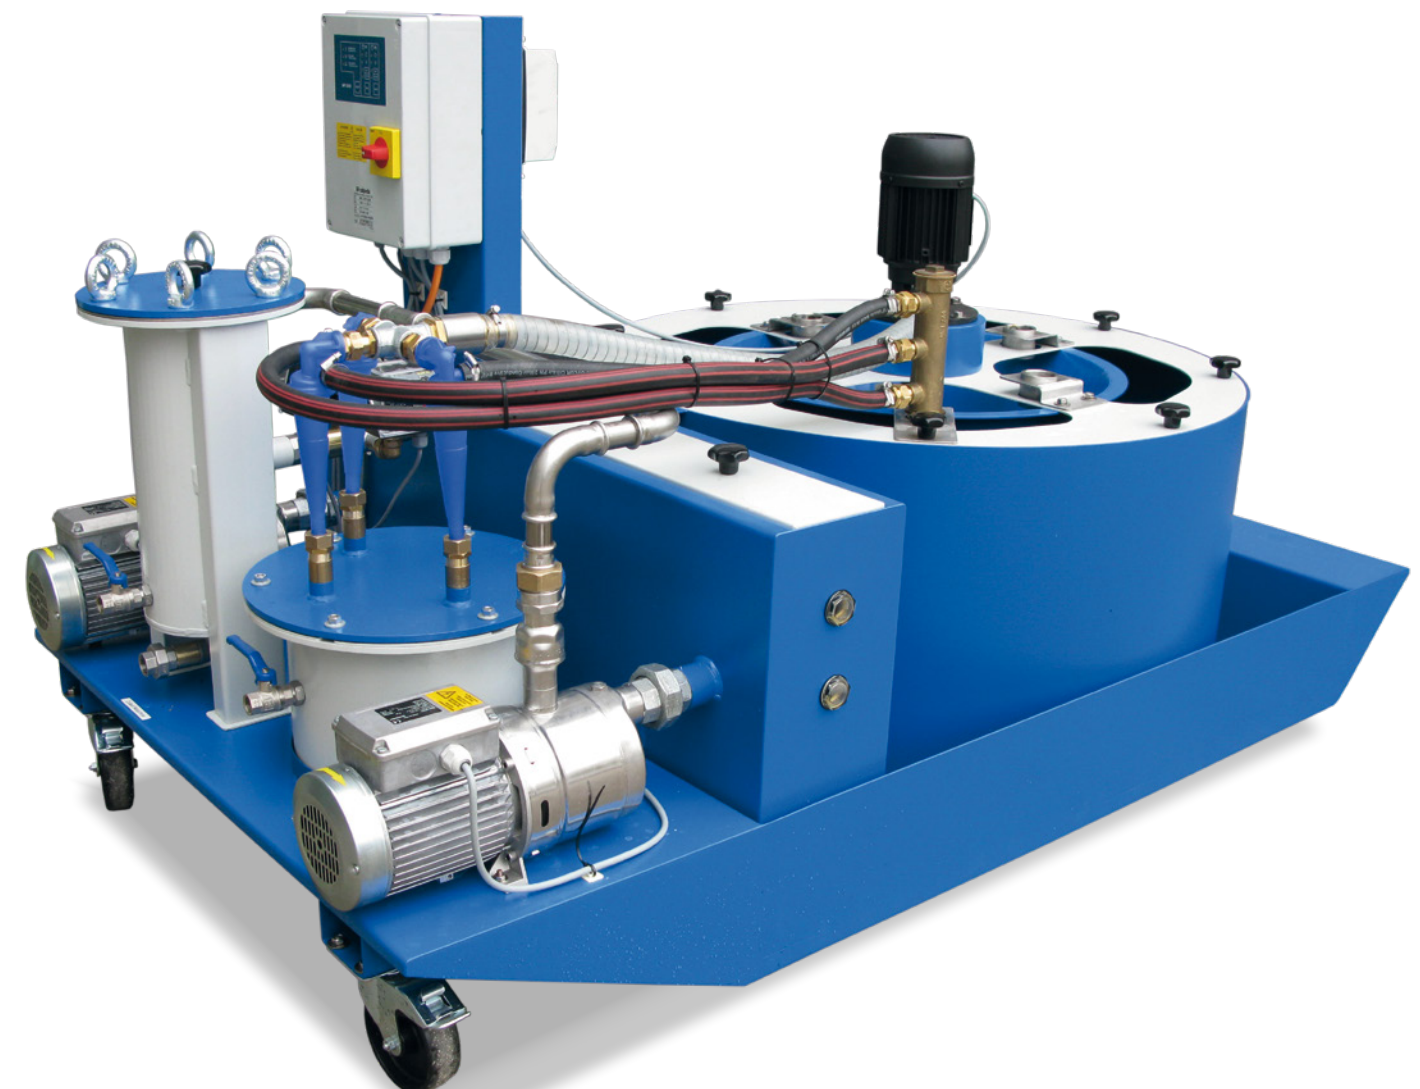

## SPECIAL SYSTEMS

Efficient solutions from Swabian inventors

Heli Blue Motion 8 – cyclone filter unit  
with automatic dirt removal

Heli Blue Motion 3 – cyclone filter unit

**Made in Baden-Württemberg**

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

## SPECIAL SYSTEMS

Synergy from many years of experience and new ideas

Processing system for KSS (customized)

Foam testing system for KSS

**Made in Baden-Württemberg**

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

## SPECIAL SYSTEMS

Custom-made solutions

Heli Blue Motion 8 – cyclone filter unit with automatic dirt discharge (customized)

Processing system for KSS (customized)

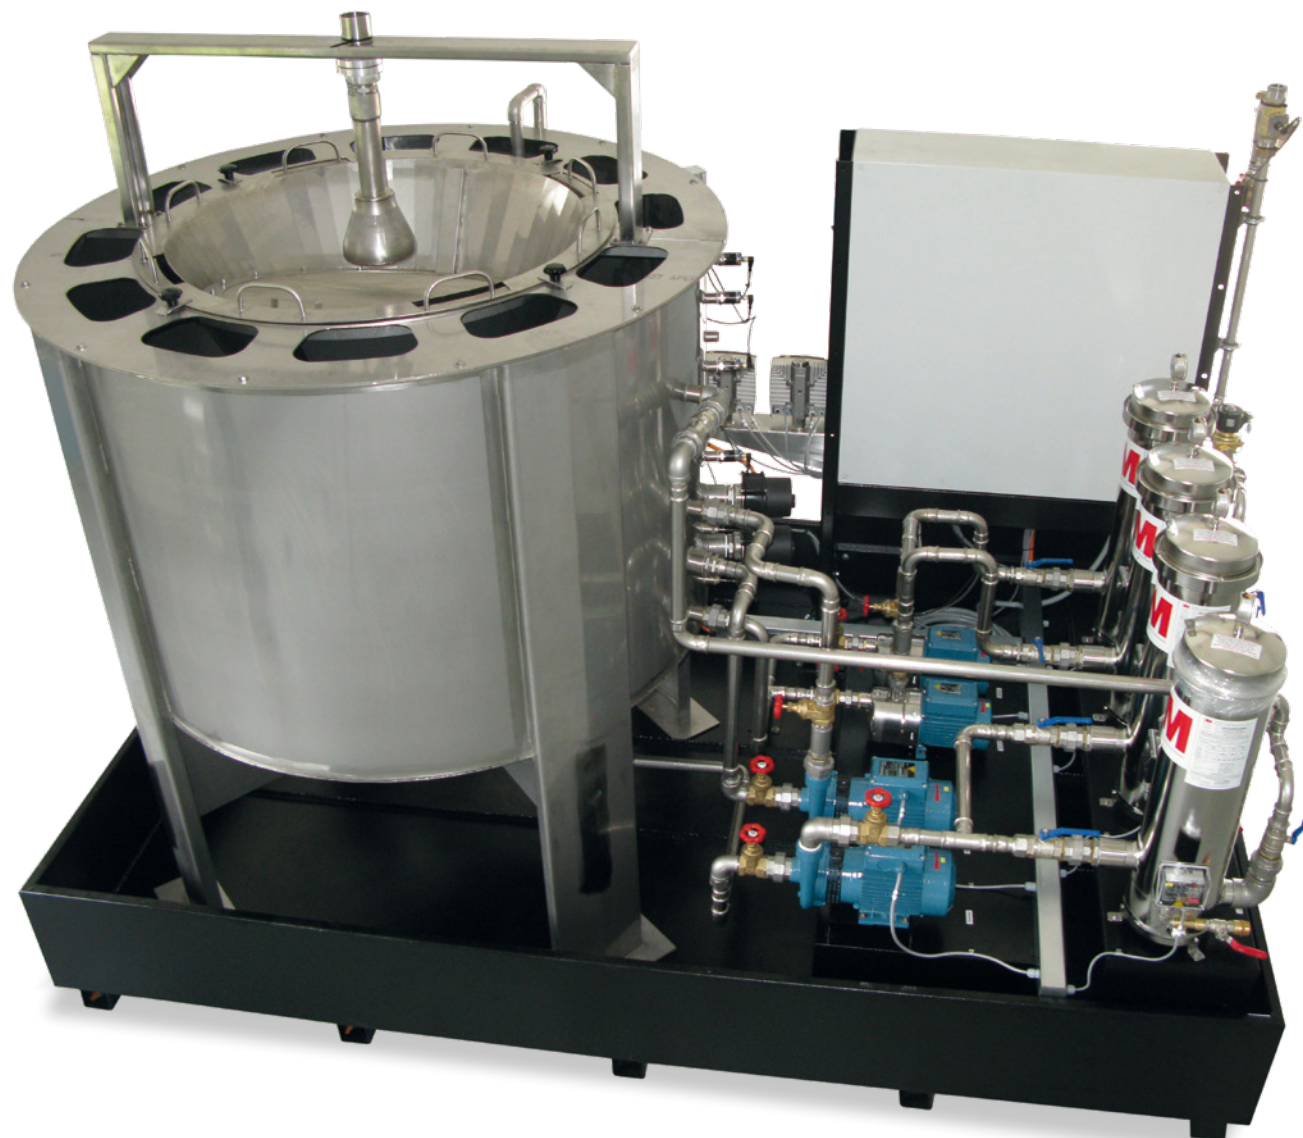

**Made in Baden-Württemberg**

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

## SPECIAL SYSTEMS

Tailor-made know-how

Processing system for KSS (customized)

Processing system for KSS (customized)

Special systems

**Made in Baden-Württemberg**

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

## SPECIAL SYSTEMS

The ideal solution for every requirement

Processing system for KSS (customized)

Special mixing system according to customer requirements

## Made in Baden-Württemberg

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

# SPECIAL SYSTEMS

## Perfectly tailored solutions

Special transport trolleys according to customer requirements. Digitally adjustable flow rate with password protected management system and printer. Softening cartridges with continuous measurement the water hardness. All parts touched by media consist of 1.4571 stainless steel.

System for continuous circulation and care of emulsion.

**Made in Baden-Württemberg**

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

## SPECIAL SYSTEMS

Perfectly implemented according to your requirements

Emulsion preparation and cleaning system.

Special system customer request.  
Processing and cleaning plant  
for emulsion.

## Made in Baden-Württemberg

Our special systems are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

# SPECIAL SYSTEMS

Exactly the solution you need

Special system customer request.

Emulsion preparation and cleaning system.

Special system customer request  
in a compact design.

Processing and cleaning plant  
for emulsion.

## SPECIAL SYSTEMS

High quality, efficient – and individually manufactured

Special digital mixing system with redundancy  
for two IBC containers.
